HMIS TO SCALE YOUR MEDICAL INSTITUTION

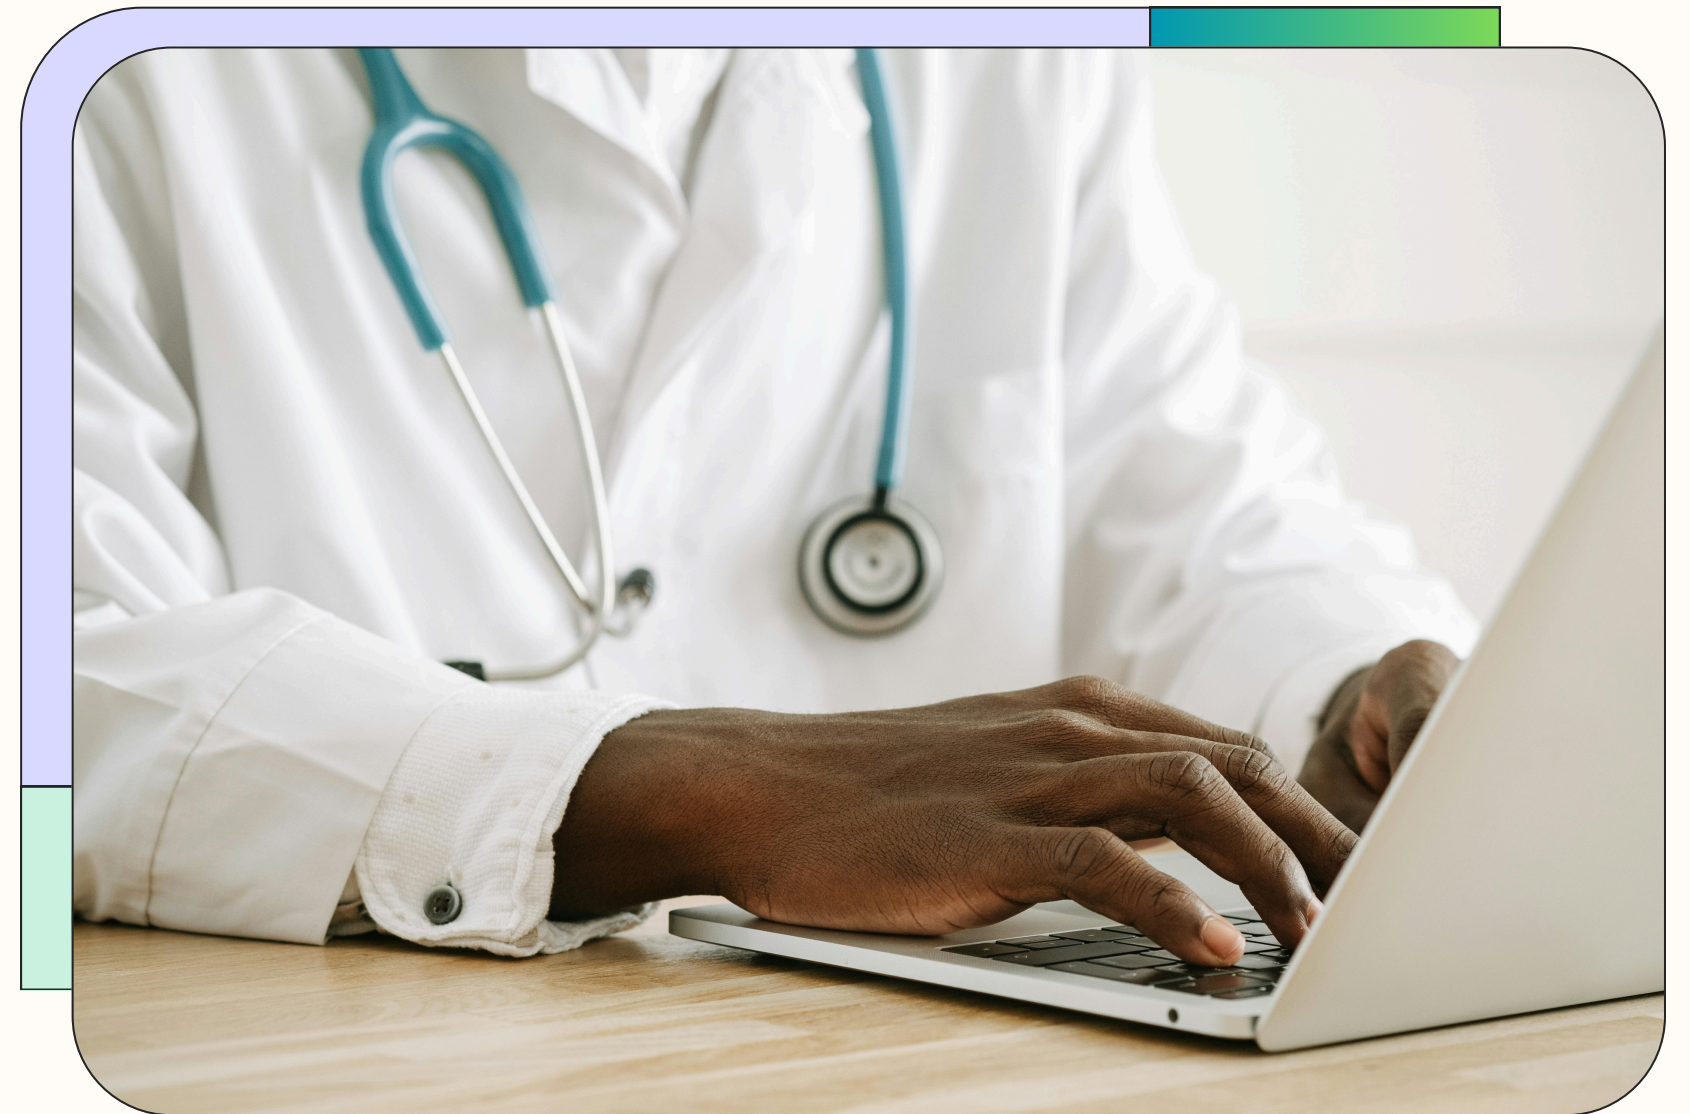

# The Future of Medical Management Technology

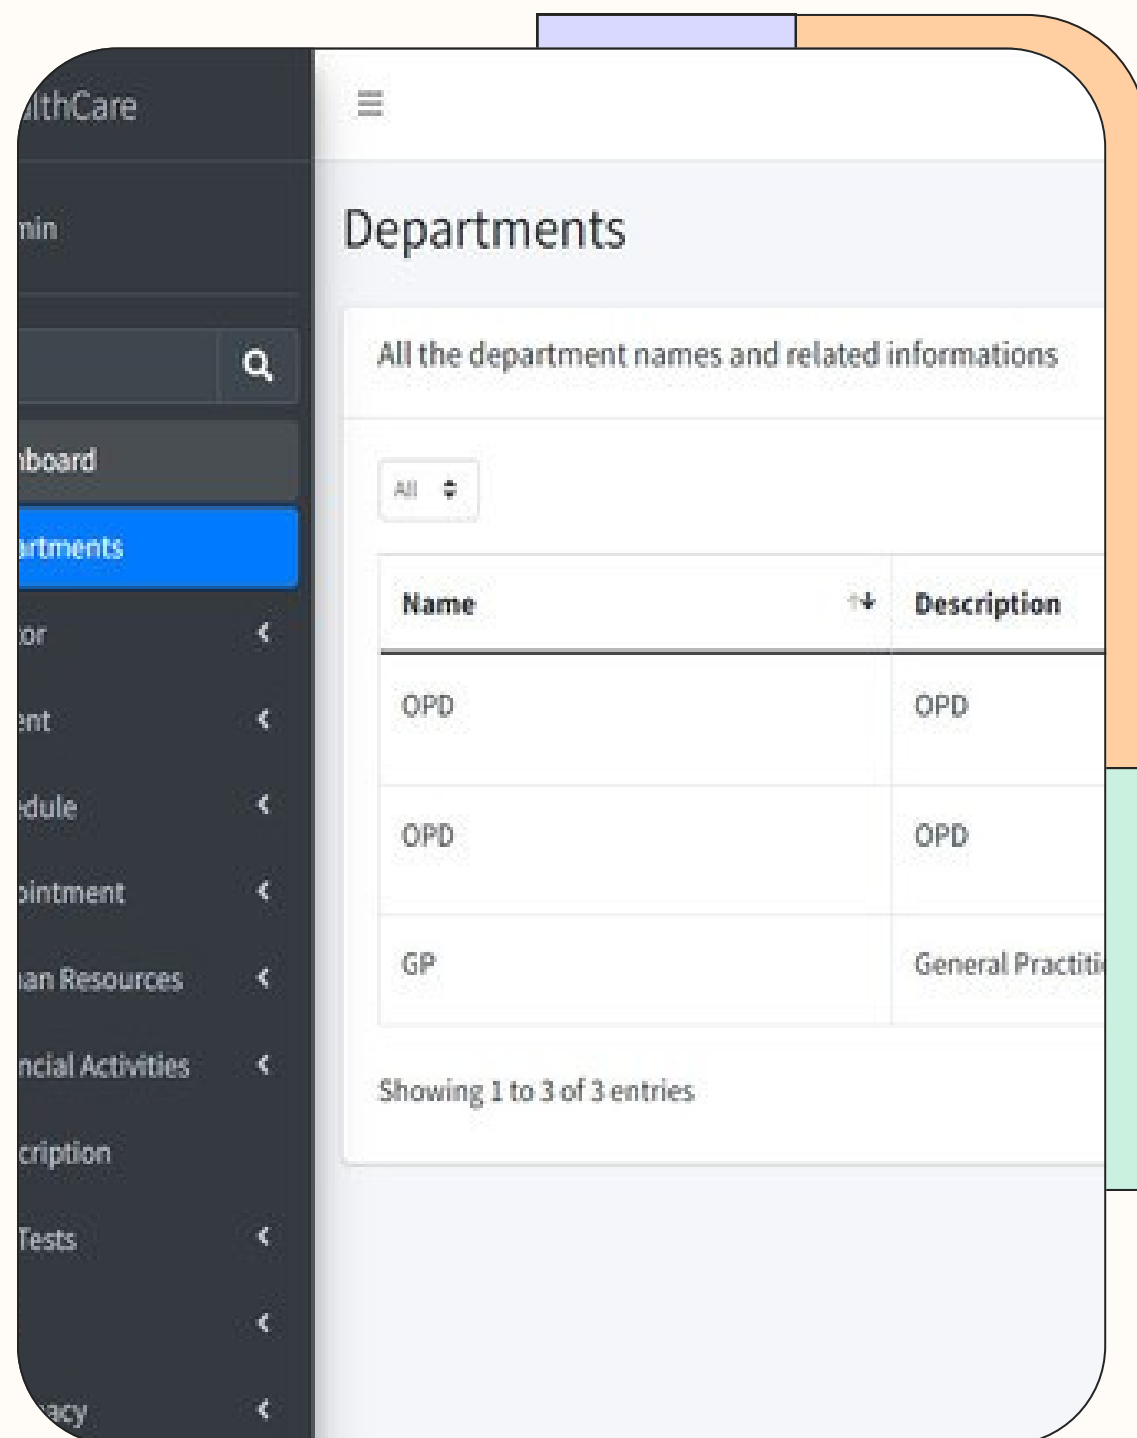

Transforming healthcare management with MediWise HMIS—a smart, efficient, and reliable hospital management system designed to enhance patient care, streamline operations, and improve hospital efficiency. Let MediWise HMIS revolutionize the way you manage healthcare services.

# Why Choose Mediwise

Simplify complex hospital operations with MediWise HMIS. From patient management to accounting, our solution is designed for hospitals, clinics, and healthcare centers of all sizes. With MediWise HMIS, you can ensure quality care, reduce operational errors, and increase productivity.

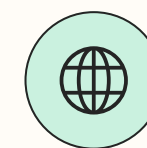

# Key Features

- Patient Management: Track patient data, appointments, medical history, and prescriptions.
- Appointment Scheduling: Simplify booking for doctors and patients.
- Doctor Database: Manage doctor profiles, schedules, and availability.
- Billing and Accounting: Generate invoices and track hospital finances.
- Pharmacy Management: Monitor medicine stock levels and issue prescriptions.
- Multi-Language Support: Serve diverse communities with ease.

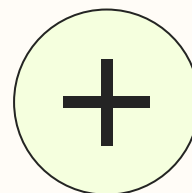

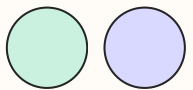

**Align Industry Needs**

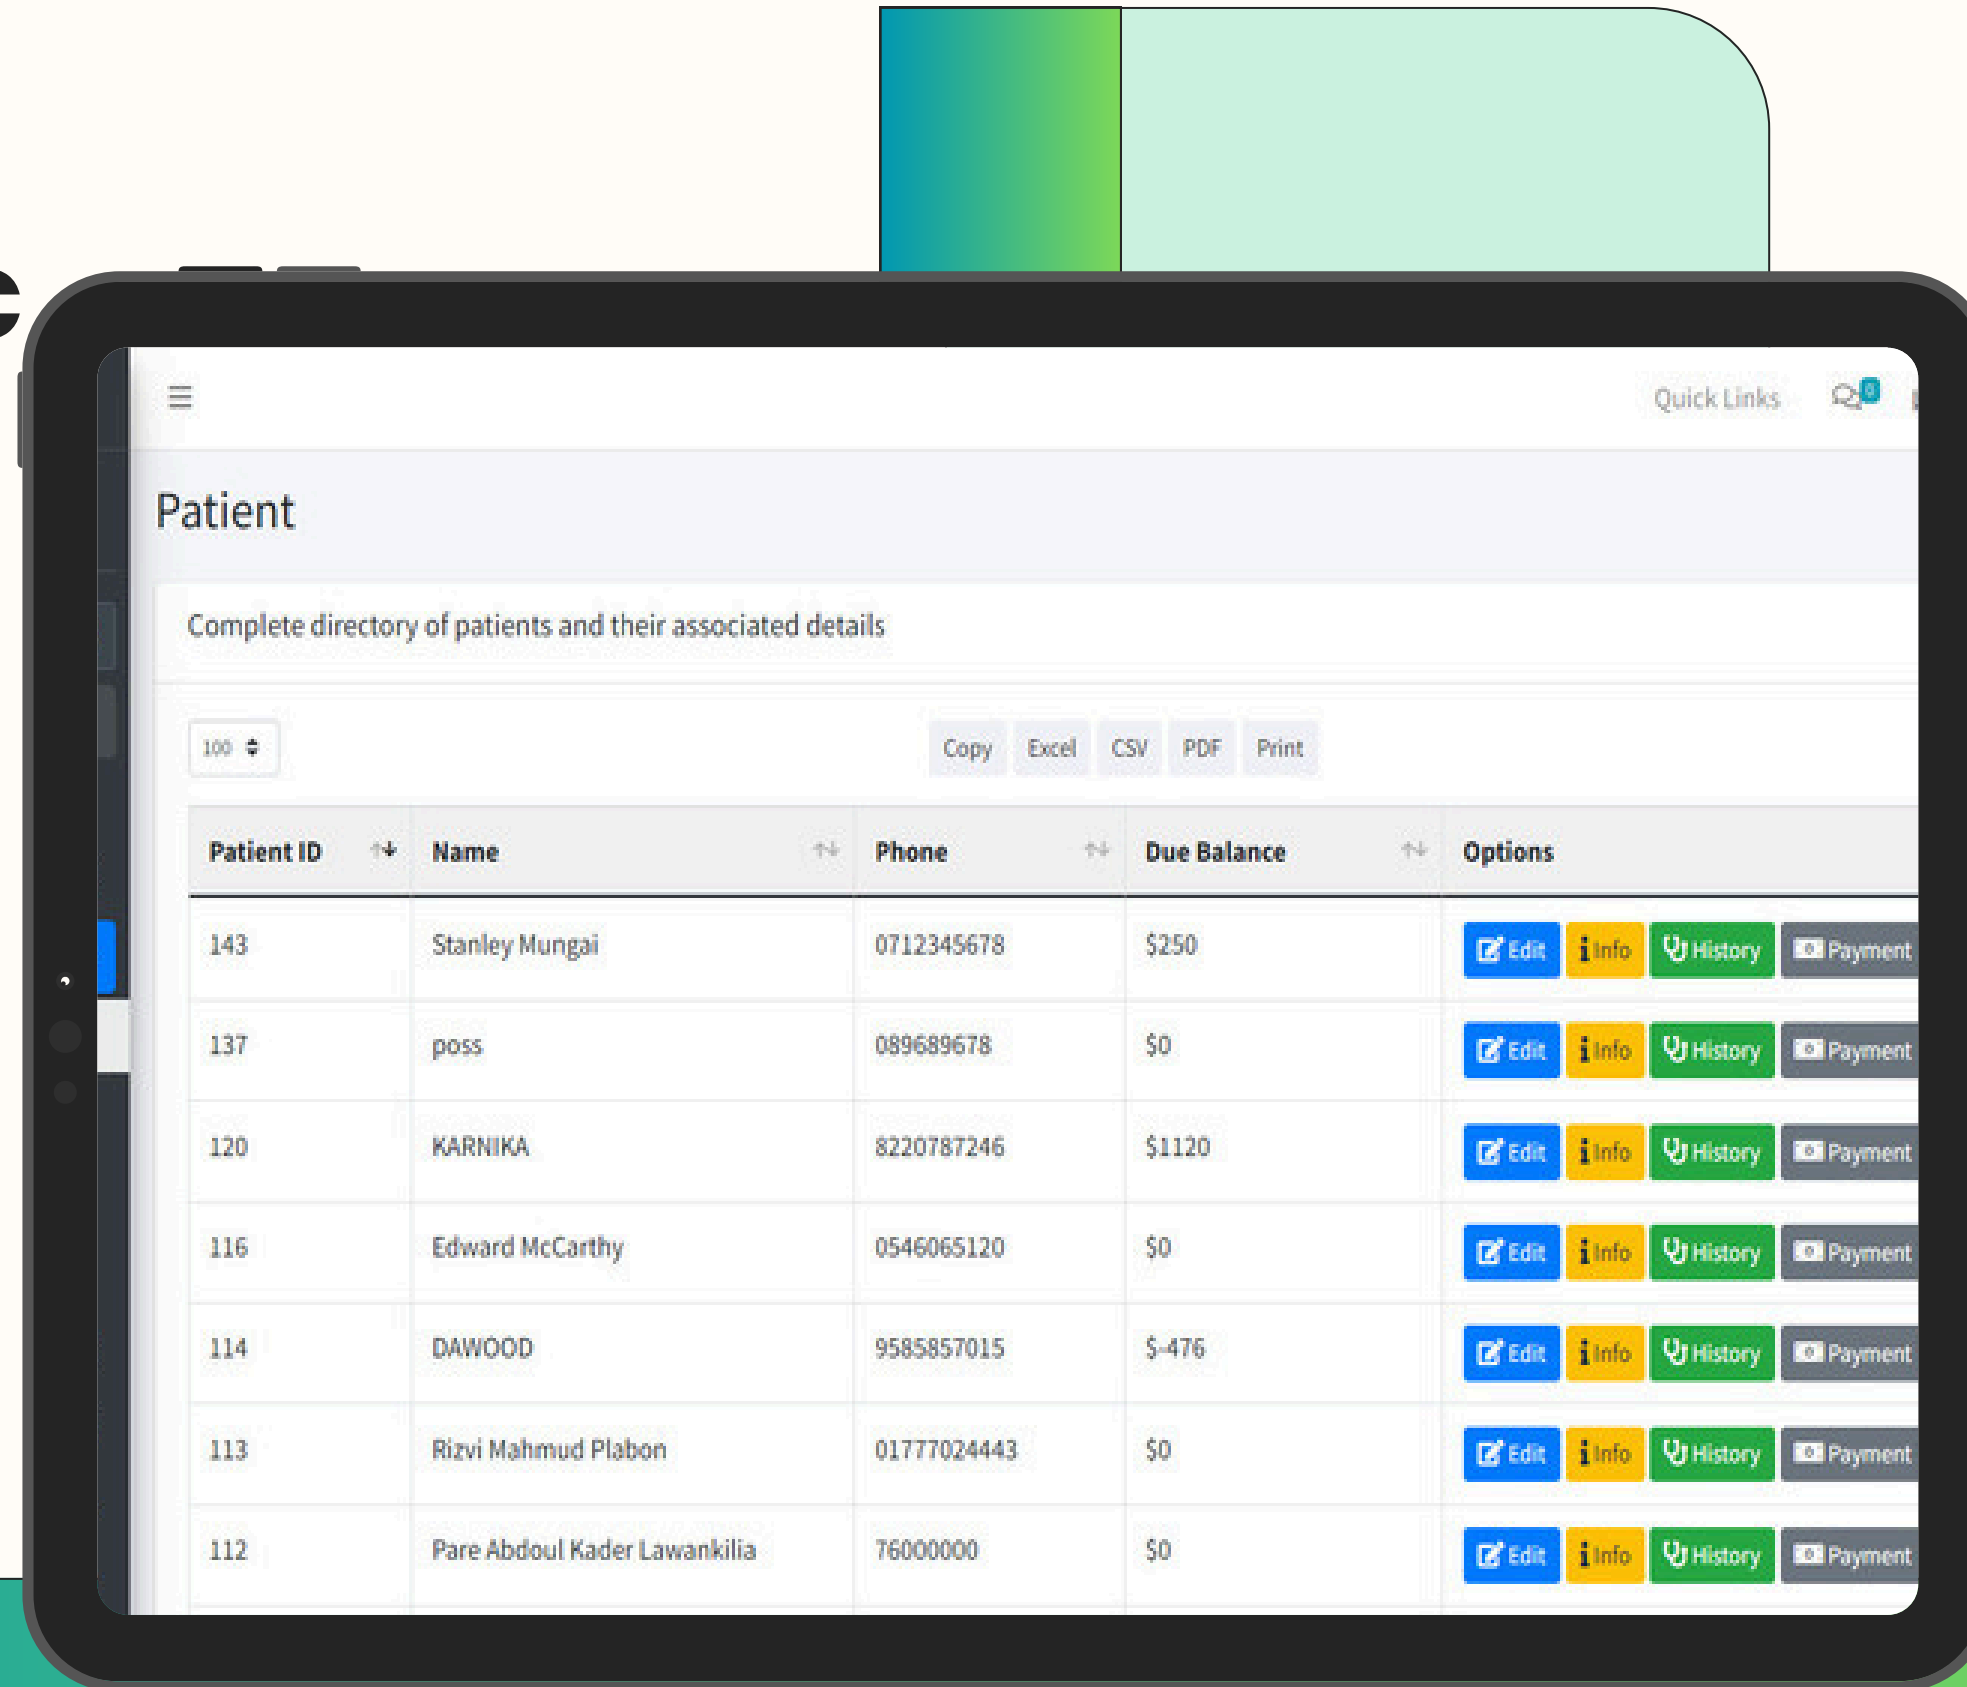

# Benefits of Mediwise HMIS

1. Enhanced Patient Care: Access patient records instantly for better diagnosis and treatment.
2. Streamlined Operations: Automate workflows to save time and reduce errors.
3. Data-Driven Decisions: Use detailed reports to optimize hospital operations.
4. Increased Revenue: Efficient billing processes reduce revenue leakage

# Patient-Centric Approach

With MediWise HIMS, patient satisfaction comes first. From online appointment booking to real-time updates, our system ensures a seamless experience for patients while reducing waiting times and errors.

Leading Medical Management Technology

# Doctor Management Module

**Customer Impact**

# Implementation Process

## Customization and Configuration

Once the requirements are clear, we customize MediWise HIMS to align perfectly with your hospital's operations.

## Staff Onboarding and Training

Our experts provide hands-on training to your team to ensure they are comfortable using the system.

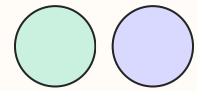

## Data Migration

We handle the secure migration of your existing data to MediWise HIMS.

## Consultation and Needs Assessment

We begin by understanding your healthcare facility's unique needs and challenges. This involves:

- Assessing your current operations, pain points, and workflow.
- Identifying the modules and features required for your specific setup.
- Collaborating with your team to define clear goals and expectations.

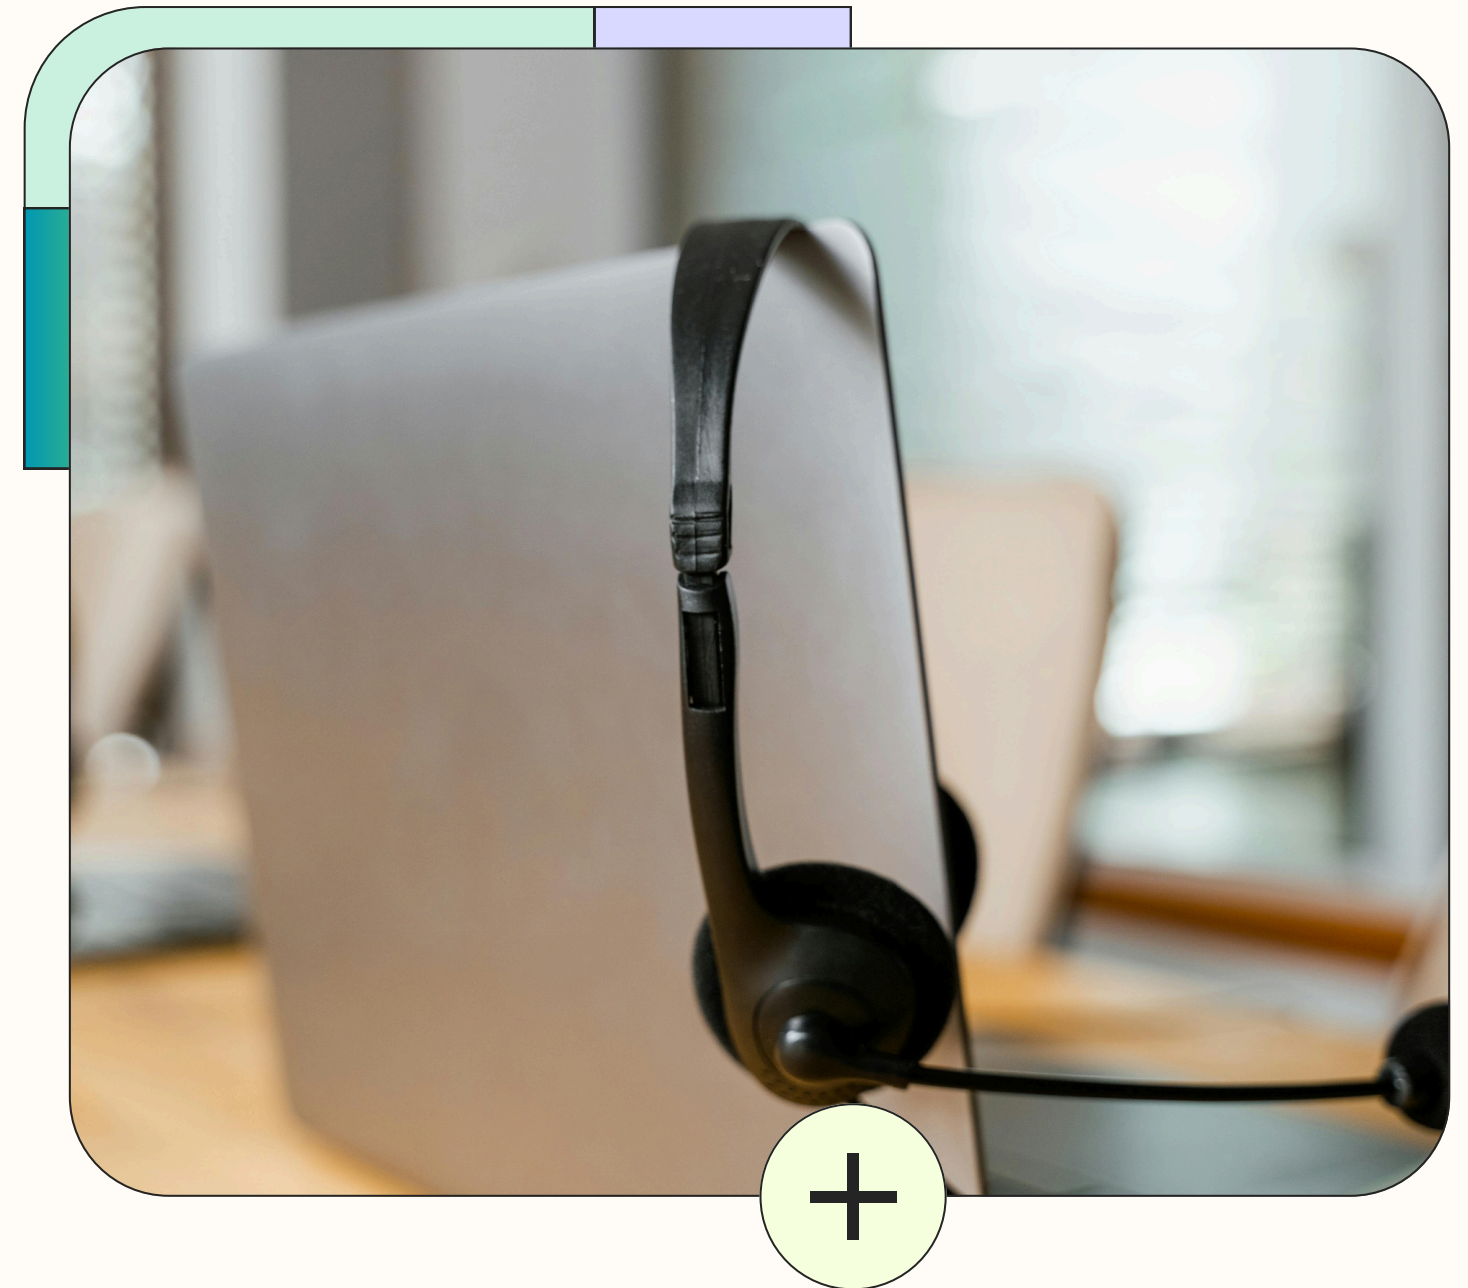

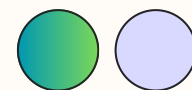

With you all the way ●

# Dedicated Support Services

Our team provides:

- 24/7 customer support.
- Regular updates with new features.
- Troubleshooting assistance for any technical issues.

# The MediWise Advantage

By choosing MediWise HMIS, you're investing in a partner that prioritizes patient care, operational efficiency, and your hospital's growth. Join hundreds of satisfied healthcare providers using MediWise HMIS today.
